

Increasing access to Minnesota Child Care Stabilization Base Grants

A collaboration with the Department of Health and Human Services | 2024

Project summary:

Minnesota's Department of Human Services (MN DHS) aimed to identify methods to enhance equitable access to Childcare Stabilization Base Grants (CCSBG) among child care providers in the state. Proactive outreach such as one-way texts and emails can improve take-up of benefits by simplifying information, and providing reminders and planning prompts. This type of informational outreach may be less effective than direct interactions that can be tailored to the individual for beneficiaries who are unfamiliar with a program or hold misconceptions about how the program works. People may also miss outreach messages if they are delivered through just one mode of contact (e.g., by email, call, or text message).

Evaluation and intervention summary:

Likely eligible child care providers who had missed at least one award in the prior six months were randomized to one of three communication bundles:

- **Business as usual:** The standard set of monthly CCSBG emails sent by MN DHS;
- Text: A set of revised monthly emails and reminder text messages, or;
- **Call:** The set of revised emails and texts plus a semi-scripted phone call from a DHS staff member.

What did we learn?

Outreach by text increased awards of Minnesota's Child Care Stabilization Base Grants (CCSBG) by 3.8 percentage points, while combining calls with text outreach increased awards by 5.2 percentage points. Among child care providers with no prior awards, outreach that included calls increased awards by 12.4 percentage points — an effect five times larger than outreach by text alone. In contrast, among child care providers previously awarded grants, outreach by text alone increased awards by 5.3 percentage points.

The project page for this impact evaluation can be accessed on our website.

Insights incorporated:

In this document, we share more details on each of the interventions as well as capture the behavioral and social science insights incorporated with the hopes that agencies can continue learning from previous efforts.

Insights from the Behavioral and Social Sciences

Below we define the insights incorporated into the interventions designed for this impact evaluation.

Application assistance: Providing assistance can help an individual overcome inertia.¹

Benefit > costs: Highlighting the benefits of taking action and the low hassle costs can encourage an individual to take action.^{2, 3}

Certainty: Emphasizing the certainty of benefits from taking an action can encourage an individual to take action.⁴

Communication channel: Sending messages through multiple channels so that they are more likelyto be seen.⁵

Effective formatting: Bolding important information and using formatting to direct attention to key takeaways.⁶

Human touchpoint: Personalizing support has been shown to improve follow through and task completion.⁷

Implementation prompt: Including a prompt promotes follow through.⁸

Proactive outreach: Calling providers directly removes potential barriers to action/help-seeking.9

Reminders: Sending messages cat the right time can catch attention¹⁰

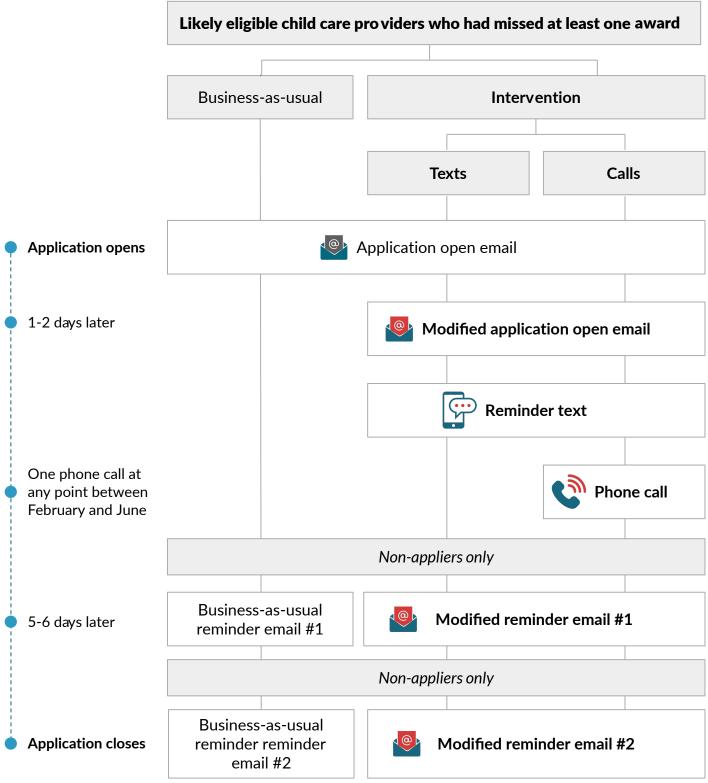

Simplification: Simplifying and shortening messages can reduce cognitive load and help facilitate action.¹¹

Trusted messenger: Sending information from a familiar party so it's perceived as more reliable¹²

DEPARTMENT OF HUMAN SERVICES

Funding Available! Apply for April Child Care Stabilization Base Grants

April 20 Effective

Minnesota's Child Care Stabilization Base Grant (CCSBG) gives most providers \$400 or more each month to increase compensation and benefits.

Apply to confirm [Name]'s CCSBG eligibility for April by 4pm on April 24, 2023!

The CCSBG is a non-competitive grant, which means ALL eligible providers will receive funding, and funds do not have to be repaid.

You can receive these funds by applying every month through June 2023. Most providers who received this funding said the application took them 15 minutes or less. Nearly all recipients received their funding within 4 weeks.

APPLY NOW!

Ways to use the funds: In addition to the 70% of funds that must be used to increase compensation and benefits, providers have used these funds to:

- Pay operating costs (i.e., utilities, rent or mortgage payments, facility improvements)
- Offer professional development and training
- Provide mental health supports for children or child care workers

How to apply: You can apply by clicking the button above and confirming your information. Providers save time by having these documents on hand:

- Last month's employee timesheets pay stubs
- Completed W-9 form •
- Federal Employer Identification Number Document

We are happy to help!

If you have any questions or need assistance please refer to the Base Grant Frequently Asked Questions web page or contact our partners Child Care Aware at 651-290-9704

Human touchpoint

Access to personalized support has been shown to improve follow through and task completion

Proactive outreach

Calling providers directly removes potential barriers to action/help-seeking

Reminders

Messages can catch attention at the right time

Trusted messenger

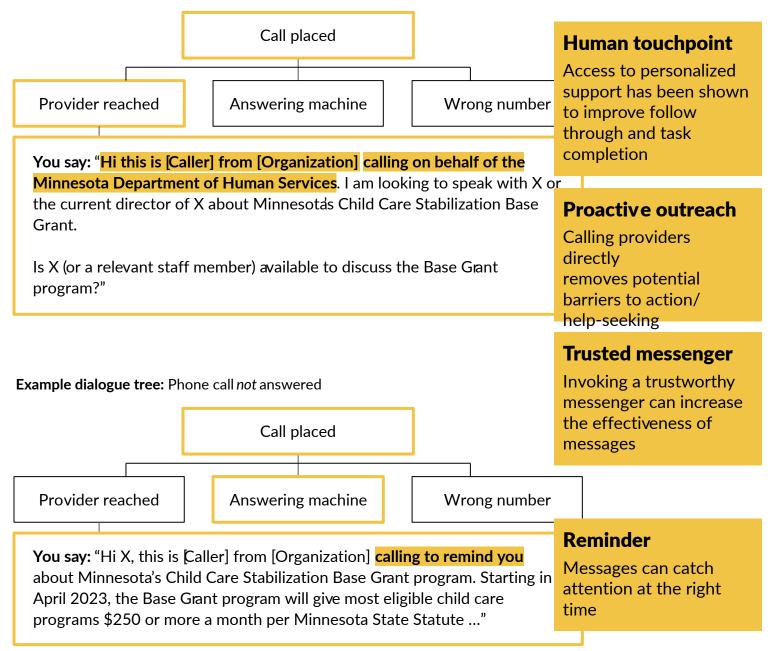

Information is perceived as more reliable when it comes from a familiar caller

A collaboration with the Department of Health and Human Services | 2024

The call script was implemented using an online form that provided dynamic talking points and captured call data.

- The DHS staff caller was prompted through call dialogue with a responsive online form
- The form collected information reported by the caller including call length, topics flagged, whether the call was taken, etc.

Example dialogue tree: Phone call answered

A collaboration with the Department of Health and Human Services | 2024
